

Accelerate ERP Modernization
DXC Premier Services
for RISE with SAP

Why DXC?

CXOs want to innovate faster, run simpler and show sustainable growth.

The barriers to an intelligent, sustainable enterprise

Organizations today are dealing with fundamental challenges, including:

- Realizing new opportunities in rapidly changing markets
- Risking disruption to existing core operations

With the acceleration of digital transformation in all industries, many organizations are still facing barriers in their ability to innovate. These barriers include:

- Limitations to enabling continuous innovation
- Lack of best practices embedded into the core business strategy and operations
- Disparate and multiple vertical industry-specific processes running your value chain end to end
- A platform that is unable to keep pace with the speed of business
- Organizational silos hampering collaboration, productivity and the ability to leverage data to make informed business decisions
- Limitations on legacy system modernization due to limited resources, cumbersome processes and technical debt
- IT skills gap

We help you make the right investments, at the right time, on the right platforms.

Embrace the intelligent enterprise evolution

Organizations are modernizing their legacy IT landscapes and beginning to harness the power of continuous evolution to achieve better outcomes.

Digital leaders need to consider:

End-to-end business processes

Continuous innovation

Service agility

Resilient infrastructure

Platform for innovation

Business process optimization

Cost reduction

Automation

Integration of systems

As-a-service nature of digital

Data-driven decision making

IT skills gap

Access to digital services

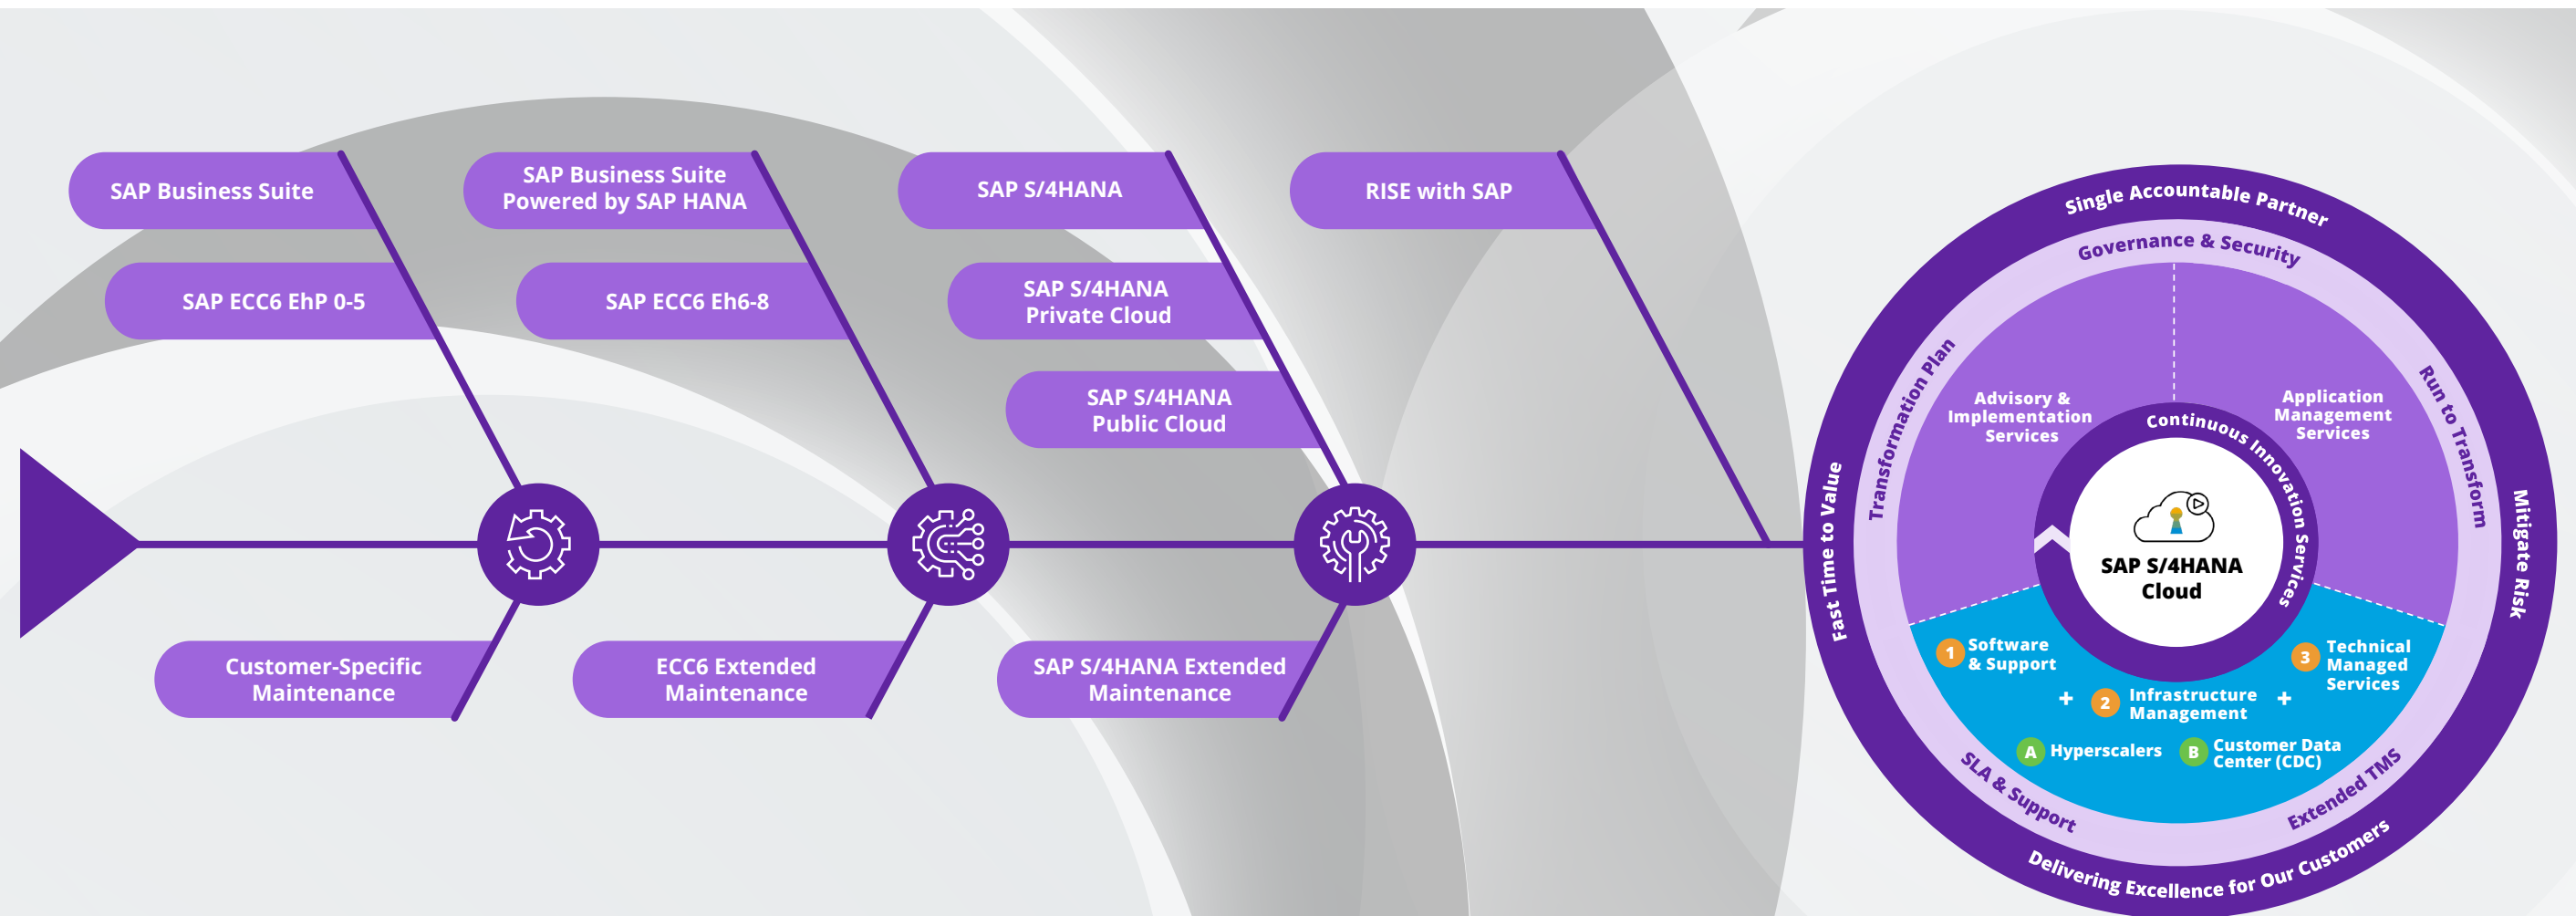

Sustainable technology

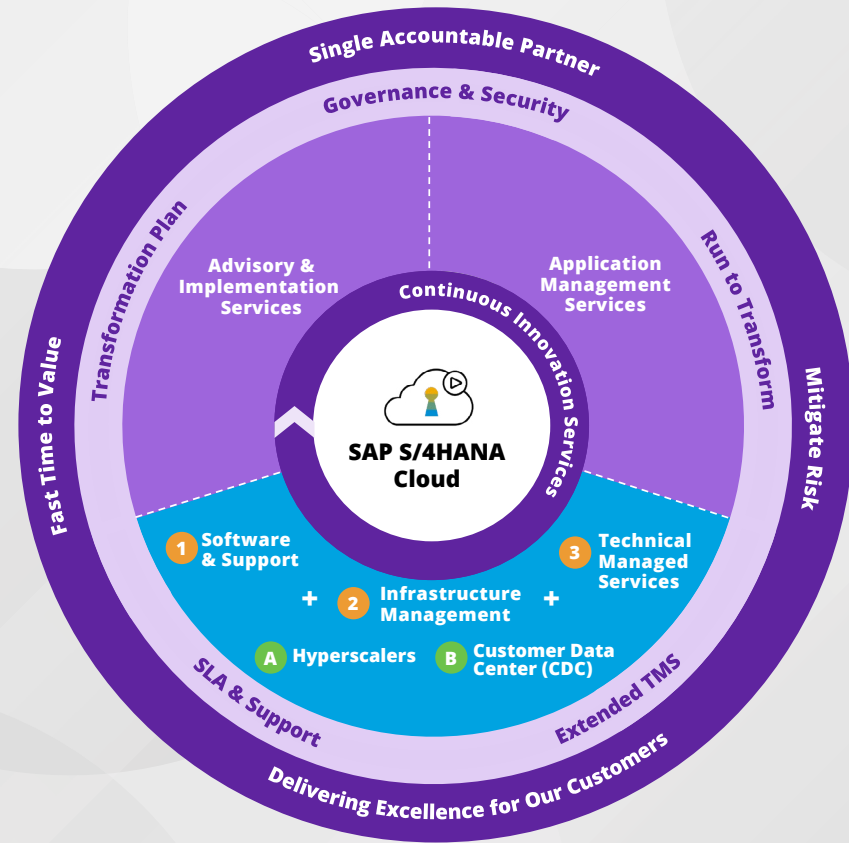

A pathway to modernization

While a full transformation and modernization of legacy ERP may seem daunting, DXC Technology has a proven pathway no matter where you may currently be on your journey. Whether you are

currently on ECC or already leveraging the power of SAP S/4HANA — we can provide you with a roadmap, deliverables and services to enable continuous innovation and achieve better outcomes.

No matter where you currently are, DXC has a pathway for where you can be.

DXC Premier Services for RISE with SAP

DXC Premier Services for RISE with SAP is designed to help businesses accelerate their digital transformation journey with SAP and drive business agility and outcomes by providing them with a comprehensive offering that covers the entire SAP life cycle.

DXC Premier Services for RISE with SAP offers customers an accelerated SAP Cloud ERP deployment, along with a clear pathway to develop new business models to ensure resilience, maintain agility, gain efficiencies to fund innovation, and transform mission-critical systems without business risk — all very simply.

DXC Premier Services for RISE with SAP features advisory, implementation, migration, integration, managed services and continuous improvement.

Single customer governance and operating model.

Boost your business.

Connect processes and data across your application portfolio with SAP Business Technology Platform, leveraging clean cloud as well as side-by-side and multi-cloud integration.

Most advanced AMS services.

SAP AMS/Operate capabilities, testing automation, process optimization.

Enhance security.

Share critical procurement, logistics and asset information using standard integrations and starter packages.

DXC's six key elements to help organizations move SAP systems to the cloud

Simplicity, consistency and single accountability, along with complete technical operations to accelerate your business

1

ADVISORY SERVICES

Our advisory services include the following key elements:

- Define business objective
- Assess current SAP landscape
- Develop roadmap — leveraging process mining and analytics to drive decisions based on costs, benefits and overall timeline
- Determine deployment options
- Identify key benefits
- Risk mitigation
- Change management

2

IMPLEMENTATION SERVICES

DXC provides a comprehensive range of implementation services leveraging best practices, industry cloud and activation to optimize and simplify end-to-end processes, including:

- Project management
- System design
- Configuration
- Testing
- Deployment

3

MIGRATION SERVICES

DXC helps customers migrate their SAP landscape to the cloud with minimal disruption to their business, leveraging automation and health checks to lower risk and time to value.

Our migration services cover all aspects, including:

- Data migration
- Application migration
- Testing

4

INTEGRATION SERVICES

DXC helps customers integrate their SAP landscape across RISE components and non-SAP applications and systems, such as CRM, SCM and HR systems.

Our integration services include design, development, testing and deployment leveraging SAP Business Transformation Platform (BTP), which also allows you to optimize your IP.

5

MANAGED SERVICES

DXC offers a range of managed services to help customers optimize their SAP landscape in the cloud.

These value stream-focused services include:

- Monitoring
- Service automation
- Performance tuning
- Security management
- Application support

6

CONTINUOUS IMPROVEMENT

DXC helps customers optimize their SAP cloud landscape by identifying areas for improvement, such as reducing costs, increasing efficiency and improving user experience.

DXC has a range of continuous innovation services that extend beyond RISE components and include process improvement, automation, reducing customizations, application and extension development, and business advisory services.

Simplifying the way forward with DXC's pioneering approach

By treating the platform as a product to drive close alignment between platform output and business value, DXC Technology can help you build in continuous evolution.
