DXC Business Process Services: Property and Casualty

Flood Insurance Services

Unrivaled flood insurance expertise from a global IT company

Simplify flood coverage for all your stakeholders — from agents and policyholders to insurance company executives.

Flood insurance is one of the most complex policies that an insurer can offer. As a regulated federal product, flood underwriting and claim settlement face enormous scrutiny. To ensure compliance with the National Flood Insurance Program (NFIP), insurers must have systems and processes that strictly follow the program's rules and regulations.

At the consumer level, policyholders who have received poor policy or claims service from one-size-fits-all solutions are looking for more responsive insurance providers. As the industry pivots to the new NFIP rating, insurers need a partner that can quickly and easily navigate the policy and regulatory complexity of the flood program. Above all, insurers need a trusted business partner with both innovative and compliant systems and processes.

A partner with the breadth and expertise to help you grow

Eighty-five percent of Fortune 500 insurers rely on DXC Technology's insurance solutions to deliver full business process management and IT solutions. Our customers benefit from our deep NFIP and property and casualty (P&C) market knowledge, customer service excellence, and reliable and innovative flood applications to support their companies' continued growth.

Our solutions are delivered as a service and as a business process service (BPS). DXC makes it easy for customers and consumers to quote, service policies, manage claims and pass audits.

Key benefits

User-friendly platform delivered as a service:

- Simplifies flood insurance complexity while meeting compliance requirements

- Has outstanding record of exceeding NFIP operational and financial audits

- Leverages DXC Technology's broad insurance ecosystem of solutions

Expertise and insight make DXC the strategic choice

DXC has provided flood insurance services for more than 30 years, and today services more than 300,000 flood insurance policies. Our end-to-end SaaS platform is supported by outstanding business services that fully support Write Your Own (WYO) providers. Our in-depth experience and unique insight into the insurance industry make partnering with DXC the strategic choice.

DXC's technology leadership and insurance expertise allow our customers to leverage our exceptional customer service and the most reliable and accurate flood insurance systems in the industry. Our comprehensive, customer-branded and flexible solution is both fully compliant with NFIP regulations and customizable to support customer-specific business processes. Our applications simplify flood coverage for all your stakeholders — from agents and policyholders to insurance company executives.

DXC is the first provider to deliver:

- Direct-to-consumer quoting complete to policy issuance

- Policyholder self-service made available through web and mobile

- NFIP vs. Private Flood comparative rating

- Integration with Excess Flood providers

- Automated agent, lender and policyholder solutions customized to customer's business model

- Integration with agency management systems

Why DXC?

For more than 30 years, P&C insurance providers have relied on DXC. By partnering with us, you'll have a variety of options that deliver immediate results and pave the way for agile scaling to meet your business needs. We'll help you seize opportunities in your market quickly, so you can secure your competitive advantage.

Capabilities
